STAT

I appreciate your letter of September 5 concerning your proposed field research trip and your undertaking to write a series of articles.

It would be mutually helpful if you could receive our views in person prior to your visit to Europe and could make Washington an en route stop-over. If you will advise me if you can arrange to do this and approximately when you will be here I will arrange the details. In addition, we would appreciate a consultation with you upon your return.

Sincerely yours,

SIGNED

Allen W. Dulles  
Deputy Director
